|          |               |       | professional responsible for customer queries. |        |        | Sooryaganesh |
|          |               |       | communicating the how's and why's              |        |        | Somanathan   |
|          |               |       | regarding service expectations within a        |        |        | RV Arun      |
|          |               |       | company.                                       |        |        |              |
| Sprint-3 | Device        | USN-9 | You can Delete/Disable/Enable Ease of use.     |        | Medium | Eraianbu     |
|          | management    |       | devices in Azure Active Directory but          |        |        | Sooryaganesh |
|          |               |       | you cannot                                     |        |        | Somanathan   |
|          |               |       | Add/Remove Users in the directory.             |        |        | RV Arun      |

### **Project Tracker, Velocity & Burndown Chart: (4 Marks)**

| Sprint   | Total Story<br>Points | Duration | Sprint Start Date | Sprint End Date<br>(Planned) | Story Points Completed (as on Planned End Date) | Sprint Release Date<br>(Actual) |
|----------|-----------------------|----------|-------------------|------------------------------|---|---------------------------------|
| Sprint-1 | 20                    | 6 Days   | 24 Oct 2022       | 29 Oct 2022                  | 20  | 29 Oct 2022                     |
| Sprint-2 | 20                    | 6 Days   | 31 Oct 2022       | 05 Nov 2022                  | 18  | 06 Nov 2022                     |
| Sprint-3 | 20                    | 6 Days   | 07 Nov 2022       | 12 Nov 2022                  | 20  | 11 Nov 2022                     |
| Sprint-4 | 20                    | 6 Days   | 14 Nov 2022       | 19 Nov 2022                  | 19  | 19 Nov 2022                     |

### **Velocity:**

Imagine we have a 10-day sprint duration, and the velocity of the team is 20 (points per sprint). Let's calculate the team's average velocity (AV) per iteration unit (story points per day)

$$AV = \frac{sprint\ duration}{velocity} = \frac{20}{10} = 2$$

#### **Burndown Chart:**

A burn down chart is a graphical representation of work left to do versus time. It is often used in agile software development methodologies such as Scrum. However, burn down charts can be applied to any project containing measurable progress over time.

Goal: 60hours in 5days
